THE MARYLAND DIFFICULTIES.

The telegraph announces that Governor Swann has removed the Maryland Commissioners. No evidence was adduced, showing malfeasance, to justify this step, even if the Governor was the proper officer to try this case. While the Governor doubtless desired such evidence, it was not material to his purpose. He wished to remove the Commissioners, not because they had violated the law, but because they refused to let rebel soldiers vote against the plain requirements of the Constitution of the State. This is all there is in the case. The Governor, backed by President Johnson, wanted rebel votes to elect two or three Congressmen, and to make a Legislature that would send the Governor to the United States Senate. There was but one way to accomplish that result, and that way was taken. This view is strongly corroborated by the fact that his police were all appointed and ready before the trial was ended. If the result shall conform to the Governor's expectation, it will be for the Senate and House to say whether they will admit to seats, members chosen in this way.

In the mean time, we trust the loyal people of Maryland will listen to no revolutionary counsels, and adopt no rash measures. Those outside who urge them on to violence may be their good friends, but they are far enough from being cool headed.

DEATH OF SENATOR WRIGHT.

The telegraph announces the death of Mr. William Wright, United States Senator from New Jersey. His health has been freeble for many months. He was born in Rockland county, New York, but removed to New Jersey as early as 1794. From 1843 to 1847 he was in the House of Representatives. In 1853 he was chosen to the Senate, and was re-elected in 1863 for the term ending in 1869. He possessed very fair abilities, and acted steadily with the democratic party.

His successor will undoubtedly be a republican.

THE European governments, and particularly such of them as instigated and encouraged the rebellion, have been manifesting much solicitude for the personal safety of JEFFERSON DAVIS. They have entreated our government to clemency. It may be they are entirely self-moved in this interposition. They certainly owe as much to Mr. DAVIS for having abetted his crimes. But it is not entirely clear that the Administration in Washington has not sought this foreign importunity as an excuse for an act pre-determined upon by itself.

On the other hand President JOHNSON is interceding on behalf of Fenians captured, convicted, and sentenced to death in Canada. It may be England wants a pretext for letting them go. It may be she does not, and will show practically her estimate of the lenity to which she invites the United States.

Here are the Fenians, who pretend not to want LYNCH and his fellows hung, and who have invoked President JOHNSON to solicit their liberation. Are they sincere? Do they want their associates hung? or do they desire the excitement the hanging of them would afford in starting a fresh foray? It looks as if they meant to bully England into rigor, and then make that rigor the motive to a new invasion of Canada.

IT is perhaps reduced to a certainty that Mr. STANTON will leave the War Department in a few days; that General GRANT or Lieutenant General SHERMAN will temporarily take his place; to be succeeded by Mr. COWAN soon after the close of Congress.

This is a sharp practical commentary on columns of invention, by Washington correspondents, touching unfriendly relations between the President and Mr. COWAN since the election in this State.

THERE seems to be danger that by artifice the President will secure the election of a United States Senator from Kansas favorable to his Policy, though the Legislature is largely Republican and Mr. LANE was led to commit suicide by the abuse heaped upon him by the people for siding with the administration.

UNLESS the "Washington specials" stop lying about Mexican affairs, about the retirement of Mr. STANTON from the War Department, and about GRANT, SHERMAN and COWAN as his successor, the mass of newspaper readers will soon vote those "specials" the greatest impositions tolerated in christendom.

TO "FAIR PLAY."—Our correspondent at New Brighton, "Fair Play" is respectfully informed that the gentlemen whose claims for office he so strongly advocates has positively refused to offer himself as a candidate, and hence it is useless to admit any correspondence upon the subject in our columns.

MR. CAMPBELL, appointed Minister to Mexico some months since, and who, according to the telegraph, has been forty times about to start in chase of the government to which he is accredited, has returned home, and is on his farm in the Miami Valley.

—The Philadelphia *City Item* nominates General John W. Geary for Vice President of the United States. We second the motion. We want no better candidate than this brave soldier and honest man. His name was a tower of strength to the Republican cause during the late contest. He lead his ticket in nearly every county in the State, which is a sure indication of his immense popularity with the people.—*Chester Republican.*

—Mr. A. Barbarin, of New Orleans, has invented and patented a contrivance for simultaneously lighting all the lamps of a theatre, hotel, or even of an entire city. A machine, like an alarm-clock, can be set to any hour, at headquarters, and when the appointed time comes, all gas-burners connected with it are instantaneously set ablaze. The invention is to be publicly exhibited and tested in New Orleans, in a few days.

—A few days since a gentleman called upon some lady friends, and was shown into the parlor by a servant girl. She asked him what name she should announce, and he, wishing to take them by surprise, replied, "Amicus" (a friend). The girl seemed at first a little puzzled, but quickly regained her composure, and in the blandest manner possible, observed, "What kind o a cus did you say, sir?"

THE BALTIMORE DIFFICULTY.

Police Commissioners Removed.

GREAT EXCITEMENT IN THE CITY.

Appointments by Governor Swann.

WHAT THE OLD COMMISSIONERS PROPOSE DOING.

BALTIMORE, Nov. 1.—The *American* has received the following special dispatch from Annapolis:

ANNAPOLIS, Md., Nov. 1.—The Governor has decided to remove the Commissioners. The decision is very bitter against them. He says the registry lists of 1866 should have been used and that the Judges of election have no right to go behind the Registry Law. He says that the Police Commissioners and Judges of election, were most partizan in their character and were guilty of gross official misconduct. He would call upon the United States Government to uphold his authority, if it should be necessary. Sheriff Thompson, of Baltimore, arrived here this morning for the purpose of taking up the commissions of the new officers. Mr. Latrobe goes to Washington this afternoon.

Great excitement prevails in the streets of this city over the removal of the Police Commissioners by Gov. Swann.

BALTIMORE, Nov. 1.—It is not yet ascertained who are the new Police Commissioners appointed by Gov. Swann. It is rumored that the new police force have already organized and will make their appearance in the course of the day in the streets. The old Commissioners have their full force out and will resist the demands of the new force for the surrender of the station houses, Marshal's office, &c. A body of 400 U. S. dismounted cavalry, who arrived here yesterday to disembark for Texas, are now at Fort McHenry, and rumor says they will be retained here to act in case of emergency.

The Baltimore *American* says it is reported that T. O. Ford, of Ford's Theatre notoriety, and Capt. Horn, of the Third Ward, one of Gov. Swann's Registers, have been selected for Police Commissioners, and that ex-Marshal Van Nostrand, one of the witnesses for the prosecution, is the new Marshal.

Half-past 1, P. M.—There is considerable feeling manifested here in regard to Governor Swann's action—some bitterly denounce it, and others approving it. Large crowds of people are gathered at the corners of the streets and near the newspaper offices discussing the matter, but otherwise all is now quiet. The new police force have not as yet made their appearance on the streets, but it is supposed they will do so before the close of the day.

The names above given as the new Commissioners and Marshal are given on rumor, but it is presumed that they are correct.

General Grant and General Comstock have arrived in this city.

BALTIMORE, November 1.—The old Police Commissioners are in session with their counsel and advisers. It is not known definitely yet what they will do, but it is believed that they will take some such cause as the following, under the laws which creates the Board of Police Commissioners. It is claimed that they have most ample power. They can, in any emergency, exercise their force without limit, and call out the military, if they deem it expedient. They can also summon the sheriff, who is made subject to their orders. They have assumed, it is understood, the grounds: first, that they are not guilty of official misconduct; and next, under the following clause in the new constitution of the State, they maintain that as they are elected to office by the Legislature, the Governor has no power to remove them, on the ground that the clause below quoted annuls and abrogates the provisions of the law under which the Governor acts, which was passed prior to the enactment of the new constitution. The clause in the new constitution referred to is as follows:

"SECTION 17.—The Governor may suspend, &c., and may remove for incompetency or misconduct, all civil officers who received appointments from the Executive, for a term not exceeding two years."

It is claimed that as the commissioners are elected by the Legislature, and not by the Governor, therefore, the Governor cannot remove them. On this ground, it is understood, that the Commissioners will go into Court, and in that manner resist, by lawful means, arrest, and otherwise, parties who may assume or attempt to exercise any of their functions, or the functions of a police officer. If the United States troops come, they will protest to the commander that they are simply exercising their lawful functions, and that they are not in either insurrection or rebellion within the meaning of the clause in the Constitution of the United States in reference to that subject; but if the Government troops forcibly eject them from the possession of the Commissioners office, Marshal's office, police stations, &c., they will submit under protest, and await the decision of the Courts. They profess the greatest solicitude to avoid any collision with the General Government, and to prevent a popular outbreak. It is now said that Mr. Ford is not to be a Commissioner, and that Geo. R. Barry and Capt. Horn, as before named, are to be appointed, but nothing is positively known as yet.

Arrival of Steamer Austria—The Atlantic Telegraph Expedition Arrive at Queenstown—Death of an Irish Bishop—Abatement of the Cattle Plague in England—the Insanity of the Empress Carlotta—The Retrocession of Venetia—The Result of the Plebiscitum in Venetia—The Organization of the Saxon Army—Austrian News—Death of Cardinal Zetowski—Prussian and Polish Affairs—The Cretans Attempt to Fire the Turkish Fleet off Candia—The War in Brazil—Marine Disaster—English Markets.

NEW YORK, November 1.—The steamer Australasian, with dates from Queenstown to the 21st ult., has arrived.

The steamer Medway, connected with the Atlantic Telegraph expedition, arrived at Queenstown from Nova Scotia, on the 20th, with the loss of her propellor.

The Irish Bishop, Lord Plunkett, died on the 19th.

The cotton crop of Egypt is said to be very large.

The cattle plague has almost died out in England.

The Paris correspondent of the London *Star* says: The greatest sympathy is manifested for the Empress Carlotta. It would appear that her mental state gave cause for alarm to her even before her arrival in France. During her voyage from Vera Cruz to St. Nazaire, she appeared to be plunged into the deepest melancholy, and constantly spoke of the immense responsibility she had assumed. On arriving in Paris, although indirectly prepared for the Emperor's refusal to alter the period he had fixed upon for the evacuation of the Mexican territory by the French troops, she persisted in her decree to have a personal interview with Napoleon. The result is known. Although the Emperor received the wife of Maximilian with all courtesy and kindness, he remained absolutely firm. The Empress unfortunately lost her head completely. She so far forgot her self-possession as to give way to the most violent paroxism of excitement, and made use of language which not only startled, but puzzled, the Emperor. This painful excitement is now easily to be accounted for. The first subject which appears to have distracted the mind of the Empress was the clause in her father's will by which he merely gave a life-use in the twenty-five millions he bequeathed to her, although he gave her power to dispose of the principal by will. The Empress applied to her brother, Leopold II., and to the Court of Flanders, to annul this clause, and allow her to devote the 25,000,000 to the consolidation of the Mexican Empire. Her brothers, however, turned a deaf ear to her solicitations, reminding her of the prodigal generosity with which her husband had spent his own private fortune, as well as a portion of hers, and positively refused her request. The Empress cannot forgive this act, and as she is aware that the King and his brother have been privately supported in their decision by the Austrian Imperial family, she will not consent to visit her family at Brussels or Vienna. Thence arose her despair, and the Pope having declined to sanction the concordate proposed by Maximilian, her appeal rejected by Napoleon Third, by her own brothers, and by the Pope, it is not surprising that her mind has given way in the presence of so much bitter mortification.

The official act of the retrocession of the whole of Venetia was completed on the evening of the 19th, and the Italian national flag was hoisted at Venice amid great popular enthusiasm.

A Florence telegram of the 19th says: The Royal decrees have been issued appointing Senator Penzola Italian Commissioner at Venice, the Duke of Verdua at Verona, and Depy Guyicardi at Mantua.

The result of the Plebiscitum in Venetia will be proclaimed on the 27th inst., and a deputation of the Mayors of the chief towns will at once proceed to Turin to present the whole to the King.

The *Opinione* of to-day states that the Government will not proceed with the general elections, but that after the Plebiscitum in Venetia, the Venetian electoral colleges will be assembled in order to choose Deputies to the present Italian Parliament. The date for the convocation of Parliament is not yet fixed, but it is believed that it will take place in the early part of December.

PRUSSIA.—The Semi-official North German *Gazette* of the 18th says: Certain journals have published a statement that the British Ambassador in this city, during a recent conversation with Herr Von Thiell, the Prussian under Secretary of State, had either demanded that the private fortune of King George of Hanover should be given up to him, or protested against its sequestration by the Prussian government. With regard to this intelligence we are enabled to state that the British Minister, on the occasion in question, confined himself to asking what course the Prussian government intended to pursue relative to the private fortune of King George, and that his remarks, by no means, partook of the nature of a demand.

It was rumored that the Prussa-Saxon Military Convention had been concluded upon the basis of the mixed occupation of the Saxon Kingdom. The organization of the Saxon army was to be postponed for decision by the North German Parliament. It was also stated that the Prussa-Saxon treaty does not stipulate for the permanent occupation of Saxony by the Prussians, but merely that the latter shall remain there until the re-organization of the Saxon army.

A Leipsic dispatch of the 19th says: At a meeting of four hundred members of the National party, a committee was appointed which in the event of the continued resistance of the King of Saxony to conclude a peace with Prussia, is to solicit King William to order new elections of members of the Saxon Chamber of Deputies, who will then have to represent the interests of the people of Saxony, as opposed to the particular interests of the Saxon Government.

AUSTRIA.—A Vienna dispatch of Oct. 18th says: Yesterday His Majesty received General Menabrea, who will shortly leave for Italy. He is desirous of being appointed to the post of Italian Ambassador in this city. Count Willpiff will leave this evening for Berlin in the capacity of Austrian Envoy at the Prussian Court.

The municipality of Vienna have rejected, by a feeble majority, a proposal to allow the Jesuits leaving Venetia to take up their residence in this city.

An Imperial receipe, dated on the 14th of October, had been published convoking for the 19th of November, all the districts of his Empire, with the exception of that of Hungary. The Emperor also addressed a letter to the Aulic Chancellor of Hungary, announcing that the convocation of the Hungarian Diet had been deferred for the present, on account of the prevalence of cholera.

Cardinal S. Zetowski, Prince Primate of Hungary, died on the 19th at Graw, aged eighty-one years.

The cholera was greatly diminishing at Pesth.

The London *Globe* adverts to the divergence of policy on the Polish question, between Austria and Russia.

The Russian troops in Poland, which some time ago received orders to proceed to the Southern frontier of the Empire, and which are now on their march thither, have been ordered back to their old quarters as a protection against any insurrectionary movement against the Poles. Moreover the Russian Government is apprehensive that Austria's conciliatory policy towards Polish subjects in Golcia, is an indication that the Court of Vienna is preparing to follow an antagonistic policy to that of Russia, in the Eastern question, and very naturally concludes that in this matter the Austrian Government is acting in concert with that of France.

TURKEY.—Advices from Constantinople to October 19th, via Vienna, say that the Cretans have made an attempt to set fire to the Turkish fleet off Candia.

The Province of Selino has been evacuated by the Turs.

The Cretan insurgents are said to have murdered an Envoy bearing a flag of truce sent by Kierfle Pasha.

BRAZIL.—Some further details have been received relating to the war between the Brazilians and Paraguayans. They are from a Brazilian source.

The sinking of the Rio De Janeiro is confirmed. Her commander and sixty-four of the crew perished. The Brazilians successfully stormed the fort held by the enemy, taking nine pieces of cannon, three flags, and a quantity of arms and ammunition. The loss of the Brazilians at this assault was 200 killed and 800 wounded, that of the Paraguayans being much greater, as over 700 of their dead were buried by the Brazilians.

The session of the Brazilian Parliament was closed on the 16th, when the Emperor delivered a speech, encouraging the patriotic spirit of the people and urging them to an energetic prosecution of the war.

LIVERPOOL, October 20.—The Cotton Broker's Circular says: Cotton was in extensive demand, and prices daily advanced in the early part of the week, with continued advances of higher quotations from India and New York. On Wednesday the demand fell off materially, and was very limited on Thursday, the week closing quietly. Still most descriptions show an advance, though after a re-action of ⅛@¼ from the high rates current on Monday and Tuesday. American has been in extensive demand, and after rising about ⅜d closed fully ⅛d above last week's prices. The sales of the week amount to 103,810 bales, including 32,020 for speculation, and 29,460 for export.

Flour in good demand at an improvement of 2d per sack on the week. Wheat in steady request at an advance of 6@8d on the week. Beef in better demand at late rates. Pork unchanged and the demand moderate. Bacon slow of sale, but somewhat steadier, at late quotations. Lard declined 1@2d per cwt., but more active at the decline. American offered at 55c per cwt.

London—Baring Bros. & Co. report Wheat active at an advance of 1@2d per quarter; white American 60@63d; winter red, 58@61d. American Flour 26@30s per bbl. Sugar very dull. Coffee steady. Petroleum steady; refined, 1s 9½d.

FROM BALTIMORE.

The Maryland Difficulties—Decision of Governor Swann.

BALTIMORE, Nov. 1.—Gov. Swann's decision is a lengthy document, covering some thirty pages of manuscript. The following are the main points in the document. The Governor says: "I have duly considered the charges which have been preferred by certain citizens of Baltimore, who were denied the right to vote at the late municipal election for Mayor and members of the city council, against the police commissioners. In connection with the testimony submitted for my guidance in the case, I have arrived at the conclusion which I shall proceed briefly to state.

"The refusal of the Police Commissioners at the opening of this investigation to appear before the Governor upon his summons to answer the charges of misconduct in office, I look upon as an offense for which they might have been held responsible without any farther inquiry into the evidence of official misconduct in the late election. It is true that the Commissioners through their counsel have, to some extent, retraced their steps and announced their willingness to appear and answer any questions the Governor might have to propound, but I don't understand they have yielded the point of jurisdiction to which they still adhere. Their action in declining to respond to the summons of the Governor, places them in the attitude of the State officers made by the law, subject to his direct supervision. Treating with contempt the power especially delegated to him by the Legislature, and the still higher power conferred by the 12th section of the 20th article of the Constitution, to take care that the laws be faithfully executed, how is the Governor, it may be asked, representing the sovereignty of the State, to discharge an imperative duty imposed upon him by the organic law in conflict with rebellious officers setting his authority at defiance and denying his right to hold them accountable for official misconduct or a palpable violation or neglect of their duties. The Police Law invests these Commissioners with almost absolute power, fearful in its scope in the hands of designing men without a check somewhere to protect the public interest. The Legislature never intended any such thing. The State of Maryland is, at this very moment, threatened with invasion by armed hordes from other States. Military organizations have been formed in the city of Baltimore for the open and avowed purpose of resisting the authority of the laws. No single step, so far as I am informed, up to this time, has been taken by the police board to suppress this tendency to anarchy and rebellion now so threatening to excite riot and bloodshed among our people.

"It is well known that so far as the action of the Governor is concerned, no pretext has been furnished for these revolutionary proceedings. Is the Governor, to whom these officers are made directly responsible by the law, to rest quiet and see the laws of the State, the public peace disturbed, the State invaded by armed revolutionists, in complicity with those whom the police board are encouraging by their apathy, and made no effort to protect the dignity of the State against insult and outrage; but the Legislature did not leave to implication, this power of the police commission, in the discharge of their official duties as State officers."

The Governor then proceeds to review the law governing his action, and proceeds to argue that the exclusion of the newly registered voters of the last municipal election by the judges, was a flagrant violation of their duties and says the examination judges of the election are all radical in their proclivities, with one or two exceptions, produced a most unfavorable impression upon my mind as to their conduct in the future, if continued in office. Entertaining the intolerate view that loyalty resided only with those who support their policy, is it not a reasonable inference that they would claim, in the absence of any instructions from the Police Commissioners who refuse to interfere, to challenge the votes of all who do not come up to their standard? If they ignored the obligation of a second ballot box for rejected votes so plainly pointed out by the law, surely it would be no greater stretch of authority to go behind the registry and recognize whom they please as legal voters.

The Governor next reviews the registration law and the various decisions under it and the election laws, and sums up as follows: The evidence in the case proves beyond a doubt that the Police Commissioners have violated the law and rendered themselves liable to the charge of misconduct in office by creating or permitting to grow up under their eyes, and with their complicity, a violent partisan organization, treating all as disloyal who do not adopt the views of the Radical party; by denying the right of the Governor to entertain jurisdiction of the charges of official misconduct, prepared against the Commissioners, by appointing to office judges of election, special policemen and clerks exclusively from their own party, and in many instances incompetent, and in some of the precincts the most disreputable characters, and denying appointments to any other class of our citizens; by delegating to the Marshal and the officers under him the power to appoint special policemen without themselves inquiring into the qualifications or moral standing of said officers, thus attempting to throw the responsibility of the bad appointments, which they were ready to accept, upon their subordinates; by suffering the judges of election to throw aside the boxes for rejected ballots, and giving them no advice as to their obligation under the law to use them, and refusing to remove them from office for so manifest a violation of duty.

There is some excitement on the street to-night, with several personal encounters. One man who was badly beaten was carried into the headquarters of the Republican party.

LATEST.

It is understood the Police Commissioners had an interview with General Grant this afternoon. They informed the General of their view of the case, and claimed that they were perfectly able to preserve the peace of the city.

General Grant also had the newly appointed Police Board before him. What took place is not definitely known, but it is reported that the General advised them not to attempt to establish their authority by force, but to rely entirely upon legal measures before the courts.

It is understood they design to apply to Judge Martin of the Supreme Court to-morrow to be sworn in, when it is the purpose of the counsel for the old board to apply and argue the case.

The Commissioners have a very large force on duty to-night. Special policemen have been sworn in. All the station houses are strongly guarded. The city is quiet.

General Grant returned to Washington to-night. Mr. Latrobe left Annapolis for Washington this afternoon.

The New Foundland lines were down both on Wednesday and Thursday, and we consequently have no later news from Europe by the cable.

FROM WASHINGTON.

New Postal Arrangements—The East India Squadron—The Public Lands.

WASHINGTON, Nov. 1.—The Third Assistant Postmaster General has just completed arrangements for the re-issue of the self-ruling stamped envelopes, which will be commenced immediately. Circulars notifying the public of the fact will be sent to all the offices throughout the United States. The improvement which this popular invention effected in the liability of the subscription and postmarks upon letters, while it was in use a few years ago, has encouraged its re-introduction.

Dispatches were received at the Navy Department, this morning, from Acting Rear Admiral Bell, commanding the East India squadron, dated Simonski, Japan, July 31. The Hartford, the flag-ship of the squadron, was at Nazoski on the 13th of July, and Admiral Bell exchanged visits with the Governor. An officer of the Tycoon, who seemed somewhat anxious as to the motions of her, arrived at that time. In consequence of the arrival in port of the Hartford, and of the British Vice Admiral King, with the Princess Royal, of three guns, and four other steamers of his squadron, and also of Sir Harvey Parke, the British Minister of Japan, who, it is understood, granted several interviews in that part of the Tycoon, notwithstanding the treaty with that Prince to the agents of the Prince of Latsuma, a discontented noble, whose territories lay in the south-west of Kinsin, and who is Lord also of the Lewchu Islands. Before the departure of the Hartford from Nagasaki, the Governor of that city informed the Foreign Consuls that the Tycoon was at war with the Prince of Nagata, Lord of Simo Nosiki, and requested that no men of war, or merchant vessels should pass through those straits and the Island Sea.

Admiral Bell had previously determined to take that route, and calling to mind the insult that was offered the Wyoming, the last American man-of-war that displayed the flag there three years ago, and feeling assured, also, that it would become a serious inconvenience to hold commerce with Hioga, situated within the inland sea, and the Pacific line of steamers shortly to be started to run for China, if that important pass was allowed to be closed without the consent of our Minister, he decided to go through the Straits; but in order to quiet any uneasiness the Governor might entertain about the affair, sent him word that he would hold no intercourse with the rebellious Prince of Nagato.

Admiral Bell informs the Department that several cases of dysentery and fever had occurred on the Hartford and Wyoming, contracted at Hong Kong and Shanghai, but the change of air from the pestilent coast of China had such a beneficial influence that the diseases have nearly disappeared.

Dispatches have been received at the Navy Department from Rear Admiral Pearson, commanding the South Pacific Squadron, on Board the United States steamer Powhattan, at Callao, Peru, under date of October 13th, and report all well.

The Commissioner of the General Land Office has received returns from the local office at Stockton, California, showing that during September last, 30,509 acres of the Public Lands were disposed of in that State, the greater portion being taken up under the Homestead Law for actual settlement.

Defection in a Regiment of Mexicans—Murder of its Austrian Officers—Maximilian Sick and Disheartened—He Shuts Himself Up in a Castle—His Early Abdication Looked For.

NEW ORLEANS, November 1.—A private letter received from the Mexican capital announces the defection of a regiment of Mexicans, organized with Austrian officers, who murdered all of the latter, and went over to Parfiera Diaz, at Ojaca.

The Austrian band at the Capital has ceased to give its open air concerts, because of the riotous conduct of the populace.

The Emperor, by reason of the sickness and distress of mind as to the health of the Empress, has shut himself up in the Castle of Chapultepec. His early abdication was momentarily expected.

Important Letter from Gen. Escobedo.

WASHINGTON, November 1.—The following important letter from General Escobedo was received to-day at the Mexican Legation:

Headquarters Army of the North Mexican Republic, Monterey, October 15, 1866.—Our affairs here are progressing very favorably. The States of Neuova, Leon, Tamaulipas, and Coahuila, are now entirely free from the presence of foreign foes, as are also the States of Sonora, Sinoloa, and Chihuahua, and in each of them. Considerable forces are now being rapidly raised to expel, once for all, every foreign invader from the national territory. From this State an advance column, composed of four thousand men, well armed, munitioned and equipped, has already marched to operate against San Louis Potosi, and twelve thousand have been sent to co-operate with a column from the State of Sacatecas, under the command of General Auga, in a movement against Durango, from which the best results are expected.

Trial of Fenians Postponed—Canadian Cabinet Meeting.

TORONTO, C. W., Nov. 1.—The trial of the Fenian prisoners has been postponed until the second week in November, to allow their counsel further time to procure evidence. The crown counsel stated that he was not ready to proceed against the others at present.

OTTAWA, C. W., Nov. 1.—An informal meeting of the Cabinet took place yesterday. It is understood that the ministers will proceed to Montreal and hold a regular session there, commencing to-morrow.

The Dry Goods Trade in a Critical Condition—Gloomy Appearance of Things in the New York Market.

NEW YORK, Nov. 1.—The Dry Goods market is very feverish and unsettled. Domestic goods must go lower. All kinds of dry goods are slow and drooping, and all look for lower prices. Manufacturers and commission houses look rather dull, and seem to feel that the time is approaching when their prices must come down. All are complaining of the dullness. Some attribute it to the warm season, others to the fact that most merchants throughout the whole country have more goods than they should have had at this season, while others wonder why goods should sell higher with gold at 147 than they did when gold was 250. No one seems to have confidence in the future, and the wisest and best merchants do not know what is the right course for them to pursue, but most seem to think that the policy that keeps them close to the shore is the best.

Excesses Committed by the Liberals in Mexico.

SAN FRANCISCO, Nov. 1.—A Guamas letter of the 19th confirms the statement of the excesses which the Liberals committed after the capture of Tanorio and others. Gen. Langborg surrendered as a prisoner of war, but was soot from behind, his body hung to a tree and a bonfire kindled under it.

Wheat firm, at $1,95 per 100 lbs.

The steamer Pacific, from Columbia river, brings $229,000 in treasure.

The amount of gold coined here at the Branch Mint during the past month was $2,300,000.

A Victoria letter dated the 22d says: The whole commercial fabric is tottering, and when the crash comes it will be such as never before experienced.

The Political Canvass in New York.

NEW YORK, November 1.—The political canvass in the city is very active, both parties have nightly processions, bonfires, fire works and mass meetings. The Democrats held a large ratification meeting, in front of Clinton Hall, at which Mayor Hoffman, Ex-Governor Seymour, S. S. Cox, and others, addressed very large crowds.

The Republicans will hold a mass meeting at the Cooper Institute to-morrow evening. Generals John C. Fremont, A. E. Burnside, Walbridge, Franz Sigel, N. S. Banks and R. C. Schenck will speak in the City Hall Park on Saturday afternoon.

To-morrow is the last day for registration, when it is believed that 150,000 names will be entered.

From Havana.

NEW YORK, November 1.—The steamer Eagle brings Havana dates to the 27th. Rumors were current during the past week, which were pretty well authenticated, of the landing of a cargo of negroes near Incara and Candians. The Governor General has sent officers to investigate the matter.

The Governor General was met with enthusiastic receptions at the various places visited by him.

The United States steamer Rhode Island, with Admiral Palmer on board, was at Havana on the 25th. The Government agent, commissioned to buy two monitors of the United States Government, is a passenger by the Eagle.

Message of the Governor of Georgia.

MILLEDGEVILLE, GA., Nov. 1—The Governor's Message strongly opposes the adoption of the Constitutional amendment, and says this amendment is equally void and unjust.

He computes the funded debt of the State at $5,840,000. He says the planting interests of Georgia can never be what they once were. He deprecates the oppression of the debtor class by creditors. The message is very long, and mostly devoted to State topics.

The speaker of the House opened the session with a speech opposing the Constitutional amendment which was greeted with applause.

Cholera Abating in Louisville—Lellyett Elected to the Tennessee Legislature—Louisville Councils Protest Against the Execution of Lynch the Fenian.

LOUISVILLE, Nov. 1.—There is no new cases of cholera, and all the former ones are reported convalescent.

Nashville—Lellyett, conservative, was elected to the Legislature by eight hundred majority.

Louisville—Resolutions were adopted in the City Council protesting against the execution of Lynch, and requesting the intercession of the President.

Destructive Fire.

BOSTON, November 1.—C. & J. R. Pierce's Nail and Heel Plate factory at Milford, Mass., was wholly consumed by fire this morning. A part of the building was occupied by Lilley & Co.'s Needle Works. The fire soon communicated to the Boston and Worcester Railroad freight house, which was destroyed with all its contents. The fire is supposed to have been the work of an incendiary. C. & J. R. Pierce's loss is $40,000, which is insured for $15,000. Lilley & Co.'s loss is not known. The Boston and Worcester Railroad loss is $8,000.

New Indian Affairs Commissioner—Remains of Miss Seward.

WASHINGTON, November 1.—Hon. Louis V. Bogg, of Missouri, the new Commissioner of Indian Affairs, assumed the duties of his office this morning.

The Secretary of State, accompanied by nearly all his family, left here in the half-past ten o'clock train yesterday evening to take the remains of his daughter to Auburn, where interment will take place on Saturday afternoon.

Grand Army Convention.

ST. LOUIS, November 1.—A National Convention of the Grand Army of the Republic, was ordered to convene at Indianapolis, on the twentieth of November, for the purpose of perfecting a National Organization. All the honorably discharged soldiers and sailors, and those now serving in the army or navy, who are desirous of becoming members of the grand army republic, are invited to attend the Convention.

Robbers Sentenced.

COLUMBUS, Nov. 1.—Michael Duffy, Chas. Anderson and George Wells, who robbed the depot room of the Adams Express Company at Newark, Ohio, in August last, plead guilty, and were each sentenced to the penitentiary for a term of years to-day.

Goodyear Dental Vulcanite.

COLUMBUS, O., November 1.—At a meeting of the Ohio State Dental Association, and others of the profession, upon due consideration it was resolved to decline acceding to the demand of the Goodyear Dental Vulcanite Company.

The Case of Mr. Culver.—It is stated that the Hon. C. V. Culver, now confined in jail at Franklin, declines to avail himself of his Congressional privilege, and will meet his trial in November. Besides civil processes innumerable, several indictments charging him with false pretenses and embezzlement are pending and to be called up next month at Harrisburg. Last week the house and furniture of the gentleman were sold at the instance of his creditors.

About Iron Tanks.—The value of iron tanks in resisting fire was amply demonstrated on the occasion of the late fire at Oil City. The large iron tank of Fisher Brothers, the capacity of which is 12,000 barrels, was submitted to a fearful test, and came through the fiery ordeal nobly. The tank was about half full of oil, and for eleven hours the side next to the fire was subjected to the most intense heat that can be imagined, and yet it is uninjured.

A deranged young man named Charles Weller has strayed from his home, at Lander's store, Berks county.

Large Shipment of Coal upon the Present Rise.

During the present rise in the river another large amount of coal was shipped to Cincinnati, Louisville, Memphis and New Orleans. The shipment would have been much larger had not several freshets of late enabled our coal dealers to send off great quantities of the "black diamonds," and the present rise, following so close upon others, found the trade illy prepared to get out the usual number of loaded boats and barges. We have carefully prepared a table of the shipments up till this morning, which will hardly be augmented as the river is rapidly receding. Here are the figures:

Simon Pure.

It is now beyond all question of doubt that whatever will completely restore the blood to a healthy condition will cure nine-tenths of a large class of diseases, which afflict mankind in the shape of *tetters, scrofula, enlarged joints, white swelling*, enlargement of the bursa, cancers, cancerous tumors, chronic rheumatism, pimples, blotches, cloasma, and hundreds of other diseases which have their origin and production in a tainted or corrupted state of the blood. It has, likewise, been found out to be true, that whatever will do this must do it through the stomach, which is the receiver of every particle of nourishment which goes to the sustaining and rebuilding of the human fabric.

Dr. Keyser's Blood Searcher is the greatest of medical discoveries, not only to cure the stomach and digestive organs and drive away Dispepsia for ever, but, likewise by the tonicity which it imparts to all the chylopoetic organs it will restore man or woman from the most debilitated and enervated condition to one of healthiness and vigor. The discovery made in the combination of roots and herbs which enter into the composition of Dr. Keyser's Blood Searcher, is not only the wonder of thousands who have been cured by the health-giving balsam, but it has elicited the wonder and challenged the admiration of learned savans and magnates in the medical profession. Of all medicines for the stomach, the liver, the kidneys, the various secreting organs, Dr. Keyser's Blood Searcher is the chief. There are thousands of aches and ailments to which it is often difficult to give a name, occasioning dullness, lethargy, sleepiness, want of elasticity—causing gloom and melancholy to spring up in the pathway of life. These all can be cured by *Dr. Keyser's Blood Searcher*. It will sweep them from your way as easily as you would brush a cobweb from your window, or blow an acrid particle from your nostrils. It is the real the only SIMON PURE BLOOD SEARCHER. *Its merits can be established in more than a hundred houses right here in Pittsburgh.* Its living cures are manifest as the noonday sun, and he who will not believe them, is willfully blinded, by prejudice and folly. Those who are sick of any disease where an alterative and invigorating tonic are needed Dr. Keyser's Blood Searcher will meet every indication, and perform a cure, even after other noted remedies have failed. *Ask for Dr. Keyser's Blood Searcher, at 140 Wood street, and take no other.* Price $1 per bottle, 6 for $5. If your druggist does not keep it, send to Dr. Keyser and he will forward by express.

Robbery at Canonsburg.

The Washington (Pa.) *Reporter* says: On Tuesday night as some students in attendance at College in Canonsburg, were passing by the store of McDaniel & Alexander at a late hour, they observed that some person was engaged in an attempt to rob it, having effected an entrance thereto by boring the lock off the door. Having quietly hurried off and provided themselves with firearms, and procured assistance, they made a descent upon the store, and after firing a number of shots at him, succeeded in capturing the thief, who turned out to be William Calohen of that place. When caught he had succeeded in filling a sack with shoes, and a valise with valuable silk goods, which he intended to make off with. He had taken leave of his friends in Canonsburg that morning, stating he was going to Texas where he had been residing since early in the spring of 1860. He reached Pittsburgh sometime in the afternoon and stopped at Hare's Hotel where he remained until after supper, saying he intended to leave on the night train for Texas. About seven o'clock in the evening, however, he hired a horse and buggy at the stable of McVey & Rogers, on Irwin street, which he drove back to Canonsburg and hitched in the outskirts of the town, where it was found at the time of his arrest, it evidently being his intention to hurry back to Pittsburgh with his booty. Calohan was brought up to town by his captors and lodged in jail before daylight on Wednesday morning. Applying to counsel, his Honor, Judge McCarrell, was sent for. The Judge arrived in town on Wednesday evening, and Calohan having been brought before him he discharged him on bail in the sum of four hundred dollars.

Killed.

A few days since, Mr. William Bostlow, was killed on the railroad leading from the Cambria Iron Company's coal mines above Cambria borough. Mr. Bostlow was walking down the railroad from the mine toward the iron bridge over which the Pennsylvania railroad passes. A train was passing over the bridge at the time, which engaged his attention, while at the same time the loaded coal cars were coming down the track on which he was walking, unperceived by him. They struck him, killing him almost instantly. Mr. Bostlow was an unmarried man, and had been a soldier in the Union army during the war. After escaping the bullet in the battle he has met his untimely fate. Surely "in the midst of life we are in death."

Deafness—Another Remarkable Cure.

To the Editors of the Pittsburgh Gazette—SIRS: Permit me to announce through the columns of your paper the marvellous cure which Dr. Aborn, at the Merchants' Hotel, has just performed upon me. My hearing was impaired for five years, and a disagreeable noise in my ears; but the skillful Doctor restored my hearing and removed the buzzing noise, by one operation, in the space of time from five to eight minutes. I reside in Waynesburg, Pa.

R. R. CAMPBELL.

PITTSBURGH, Oct. 31, 1866.

The Christian Recorder.—A large and interesting meeting of our colored fellow citizens was held last evening, at the Wylie street church, for the purpose of taking some measures for properly encouraging and supporting the *Christian Recorder*, the only newspaper published under the auspices of the colored people, in Pennsylvania. Rev. James Lynch, the editor of that journal, made a few brief and pertinent remarks, urging upon the audience the necessity of properly encouraging such an enterprise as it will greatly advance the status of the colored people of the State and country. We are pleased that his efforts to awaken sympathy in the cause were duly appreciated in a substantial manner by many of those in attendance.

A Precocious Boy.—One day last week a little boy four years old, named Ralph Sage, left his parents' residence, in Tidioute, and suddenly disappeared. His disappearance was advertised in the *Journal*, which paper announces his recovery as follows: "The missing specimen of Young America has been found; Ralph concluded to visit his grandmother, and did so. Going to the depot, he got on a down train, and told the conductor he was going to Oil City. He got off at that point and made his way to Franklin, where he turned up safe in grand-mother's arms.

Sad Mistake.—A lamentable accident occurred in Luzerne township, Fayette county, a few days since. A lady, with her babe, eight months old, an only child, was visiting Capt. Woodward, a relative, where both the mother and child became unwell, and a physician was sent for, who left some powders for the mother for neuralgia, and other powders for the babe. Unfortunately the medicine intended for the mother was administered, by her, to the babe, which caused its death in a few hours.

Look out for Them.—Counterfeit $100 bills on the National Bank of Boston are being circulated. It is difficult to detect the counterfeit from the genuine, as the former are admirably executed.

Profitable Stock.—M. J. J. Anthony, of Shelocta, Indiana county, recently sold two Chester white pigs, six months old, for the sum of eighty dollars.

The Coming Winter.

The weather-wise sages throughout the country are all unanimous in the belief that the coming winter will far exceed in severity any of its predecessors during the last twenty years. Various are the prognostications cited, among which are the fact that the squirrels are more than usually busy in hoarding up a supply of food for the inclement season, and that in order to escape the intense cold, they are burrowing a great deal deeper in the earth this season than is their want, thus indicating their good sense in making early provision against the frosts. Their example is worthy of imitation by even the intellectual animal man, who will show his good judgment by preparing himself with warm clothing, to meet the attacks of the blustering icy monarch. No where can a man procure better garments, or more peculiarly suited to the season, than at the mammoth auction house of Thomas A. McClelland, Nos. 55 and 57 Fifth street, immediately under Masonic Hall. The stock of boots, shoes, gaiters, dry goods, including silks, calicoes, flannels, country blankets, overcoatings, and in fact, everything requisite to comfortably clothe a man or woman during the five months that follow the present one, is just such a one as offers the best selection.

If you want anything—no matter what, where manufactured or grown, at low prices—go to McClelland's, and you will be sure to be suited. Remember the place, under Masonic Hall.

New Librarian.—The Public Catholic Library Association has elected Charles F. McKenna, Esq., Librarian for the ensuing year. Mr. McKenna is a gentleman thoroughly qualified for the proper discharge of the duties assigned the position, and under his management we anticipate that new vigor will be infused into the affairs of the Library. Mr. Frank P. Smith, the outgoing official, has accepted a position upon the *Republic* as city editor.

Embezzlement.—William A. Arnold came to the office of Alderman Strain, yesterday, and made an information against Thomas M. Little, charging him with having taken clothing to the amount of ninety-two dollars and fifty cents from the defendant, and selling them, and appropriating the proceeds of the sale to his own use. A warrant was issued for the arrest of the accused.

Assaulted Her.—Mrs Hibgartkooch came to the office of Alderman Albeitz yesterday, and made oath charging James and Cyrus Turner with perpetrating on her person an aggravated assault and battery. A warrant was issued for the arrest of those who had the brutal audacity to raise their hands against the unoffending Mrs. Hibgartkooch. What a name.

Discharged.—Michael McCorlon came to the office of Alderman Taylor, yesterday, and instituted legal proceedings against James Leonard for assault and battery. The accused was arrested and brought before the magistrate, but after a hearing was discharged, the evidence being insufficient to warrant the prosecution.

Abandonment.—Elizabeth Hultz appeared before Alderman Strain yesterday and made oath against her husband, Zeddick Hultz for abandonment. The parties reside in Baldwin township. A warrant was issued.

Committed.—Charles Porter, accused of deserting his wife, was arrested and brought before Alderman Strain, yesterday, who, after a hearing, committed the defendant to jail to await trial.

Died of his Injuries.—John Bertolete, who was injured a few days since at the Harrisburg depot, of the Lebanon Valley Railroad by a train of cars, died of his injuries.

New Sensation.—Catherine Schertz, a Jewess, is creating a sensation in Lancaster county, as a pulpit declaimer. Her sermons are pronounced very able.

Sudden Death.—Henry F. Felix, a prominent merchant of Reading, died suddenly a few days ago.
